

# 01 CIVIC CENTRE & LIBRARY

## PROJECT COMPONENTS

The program is divided into 3 components:

### 1. Cultural Zone

Library and Art Gallery

### 2. Public Space

Repurposed land in the city for public use goes a long way in making these spaces safe and utilized.

### 3. Commercial Zone

Retail Shops: Public Plazas are complemented by retail shops and cafes for an active atmosphere throughout the day.

### 4. Pedestrianization

The entire site is pedestrianized to complement the existing pedestrian plaza of MG Road.

The project aims at looking at the nature of the relationship between a civic institution and how it can influence a public space supported around it.
